

Interested in the laws and regulations regarding herps in North Carolina?

Join the NCPARC Policy, Regulation and Trade Working Group!

We will be meeting in Greensboro on November 16th, 2005 at 1PM. Discussions will focus on recommendations for rules to update the “turtle bill”, and, if time allows, recommendations to steer development of the “dangerous animal bill.” All are welcome to attend.

Come to UNCG and help us work together to improve the protection herps and responsible herp enthusiasts receive under the laws and regulations of North Carolina. Maps and directions are on the NCPARC home page www.bio.davidson.edu/nparc.
